[Folder Color 3.1.1 \(Full Crack\)](#)

Method of Voucher Numbering	? <b>Manual</b>
Prevent Duplicates	? <b>Yes</b>

1. **Prevention of Duplicates is possible if you enable the option at the time of creation. You may enable it later (by alteration) only if there are no transactions of this voucher type.**
2. If you face difficulty due to existing transactions, just create another voucher type for preventing duplicates of subsequent voucher numbers.

**None**

This will disable numbering of such vouchers. If you select this method, no further information is required.
